- Bangladeshi

## Professional Summary

Software engineering student and full-stack developer with hands-on experience building and deploying production-grade web applications, alongside active research in bioinformatics and machine learning. Proficient in React, Node.js, Java, Python, and Firebase, with a strong record of taking projects from concept to live deployment. Passionate about applying deep learning and computer vision to solve real-world problems through creative, well-engineered solutions.

## Work Experience

- 04/2026 – Present  
Remote

**GrihoTech, Full-Stack Web Developer**

  - Designed, built, and deployed a production-grade e-commerce platform using React 19, Vite, Node.js, Express, MySQL, and Firebase Authentication.
  - Implemented an end-to-end pricing and discount system (original price, sale price, auto-calculated discount), multer-based image uploads, and Google Gemini AI product recommendations.
  - Resolved complex Namecheap cPanel shared hosting deployment challenges (CloudLinux Node.js Selector, dist packaging, MySQL schema migrations).
  - Integrated a React Admin dashboard with role-based access control and Firebase Storage CORS handling.
  - Live site: [www.grihotech.com](http://www.grihotech.com)
- 2025 – Present  
Dhaka, Bangladesh

**Health Informatics Research Lab, Daffodil International University, Assistant General Secretary**

  - Coordinate research activities and day-to-day lab operations in collaboration with the Principal Investigator.
  - Support fellow researchers across bioinformatics and health informatics projects.
  - Awarded Computer Vision Bootcamp completion certificate from the lab.
- 01/2024 – Present  
Bangladesh

**absunifiedbd.com, E-Commerce Web Developer**

  - Develop and maintain full-stack e-commerce features for a live commercial platform.
  - Collaborate directly with business stakeholders to ship product management, order processing, and payment workflows.
- 06/2023 – Present  
Dhaka, Bangladesh

**Health Informatics Research Lab, Daffodil International University, Researcher**

  - Conducting applied research in deep learning and bioinformatics under the Health Informatics Research Lab.
  - Building neural network architectures and pipelines for biological data analysis.
  - Supervisor: Dr. Md. Zahid Hasan, Associate Professor, CSE.

## Education

## Technical Skills

### Languages

Python, Java, C/C++, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

### Databases

MySQL, PostgreSQL, Firebase Firestore, SQLite

### Tools

VS Code, IntelliJ IDEA, PyCharm, DataGrip, Postman, Linux

### Frontend

React 19, Vite, TypeScript, Tailwind CSS, Responsive Design

### Cloud & DevOps

Firebase (Auth, Storage, Functions), cPanel, Netlify, Git, GitHub

### Backend

Node.js, Express.js, Spring Boot, REST APIs

### ML & Research

PyTorch, Scikit-learn, Mamba architecture, Knowledge Distillation, Computer Vision

## Languages

### English

Professional working proficiency

### Bangla

Native
